Are you concerned about how the changes in federal laws and policies will impact the safety, health and support services of the people you serve?

Join us if you want to...

- *stand together with others to protect our cherished values of inclusion, social justice and civil rights.*
- *explore how we can work together to mobilize our resources for greater impact.*
- *learn more about nonprofit advocacy.*

At this meeting we will...

- *hear from local nonprofits who successfully engage in advocacy.*
- *discuss your agency's advocacy priorities and concerns.*
- *identify barriers, tools and resources for effective advocacy.*
- *explore possible strategies to engage in effective advocacy... together*

HCA's goal is to create a critical mass of individuals and groups working together to preserve our shared values and community services.
